FOR IMMEDIATE RELEASE

**Adam Howarth Joins EAW ASG Team
As Application Support Specialist**

Whitinsville, MA – April 3, 2008 - Eastern Acoustic Works (EAW) has announced the appointment of Adam Howarth to the Application Support Group (ASG), the company's multifaceted team offering a wide range of specialized technical services to its worldwide customer base. The appointment was announced by Joe Fustolo, manager of EAW ASG.

As an Application Support Specialist based at the company's Whitinsville, MA facilities, Howarth provides the EAW customer base with in-depth technical support for all EAW professional audio products, including the Smaart tuning and analysis platform. He joins the ASG team with a background in live event system design and engineering, and has served as a live and recording engineer, an audio instructor, and as a design consultant for theaters, production companies, and educational institutions.

Howarth received a Macintyre Award for Theatrical Design in 2000, and also was nominated for an Ovation Award in Sound Design for his work on the production *Macbeth a Modern Ecstasy*. He holds a Master of Fine Arts (MFA) degree in Sound Design from the California Institute of the Arts, as well as a Bachelor of Arts (BA) degree in Theater from the College of Wooster.

"We're beyond pleased to be able to provide EAW customers with access to the real-world knowledge and problem-solving skills that someone of Adam's considerable experience brings to the table," states Fustolo. "It further enhances our abilities to provide invaluable reality-based insights regarding the many challenging issues that come up daily in the world of systems design and integration."

The EAW ASG team now includes four sound system designers, three phone technical support specialists, and a special projects coordinator.
