FOR IMMEDIATE RELEASE

**EAW Line Arrays And Subwoofers Deliver Sound Reinforcement
For 2008 Carnaval de Vinaros In Spain**

Whitinsville, MA – May 12, 2008 – Every year for two weeks, the small city of Vinarós in Castellón, Spain, is transformed with the celebration of the Carnaval de Vinarós, a huge fiesta featuring vibrant shows with various themes, with sound reinforcement for this year's recently concluded Carnaval led by EAW KF Series line arrays and SB Series subwoofers.

E.J.R. SYSTEMS S.L, a sound and lighting rental company based in Benicarló, headed the sound reinforcement effort, collaborating with production suppliers Dodinuf and Yapedú Producciones on a main system featuring 32 KF730 Series small line array modules joined by 16 EAW SB1000z double-18-inch subwoofers.

"Day after day, I honestly enjoy my job more," states Eduardo Soriano, sound technician and co-owner of Yapedú Producciones. "I'm working with an unbeatable team of world-class brands such as EAW. They are exceptional - great to use, and the quickest and easiest set-up and adjustments I've ever experienced.

"For this event, we had a clear goal: excellent sound with a great sound pressure level. And we got it, as well as the congratulations from the organizer of the event," Soriano adds.
